

OPTIMIZE TOOL LIFE

SK Collet Chucks are lean, tough, and efficient.

FEATURES

- Titanium Nitrided Bearing Nut (HV2,200) increases cutting performance and tool life durability.
- Two times more accurate than ER Collet Chucks, within 10 times better repeatability.
- Narrow body design accesses tight spots.
- Over 1 million SK Collet Chucks and 15 million SK collets sold worldwide.
- Applicable for all milling, drilling, reaming and rigid tapping applications.

TITANIUM NITRIDED BEARING NUT (HV2,200 - US PATENT 6923451)

- More efficient than conventional ball bearing built-in nut!
- Less micro vibration with collet flange contact
- Good sliding effect due to surface hardness of HV2,200
- Increase cutting performance and tool life durability
- No damage, no friction
- More cutting rigidity
- No corrosion occurs internally

SEE IT IN ACTION

Scan to watch SK vs. ER video - see how you can achieve longer cutter life and better finish with the SK collet chuck.
